THE CAPITOL
TALLAHASSEE 32301

July 1, 1984

The Honorable Bob Graham
Governor of Florida
Capitol
Tallahassee, Florida 32301

My dear Governor:

As Insurance Commissioner of the State of Florida, I am pleased to submit to you my Annual Report on Insurance in the State for the fiscal year July 1, 1983 to June 30, 1984 as provided for in Chapters 624.313 and 624.315, Florida Statutes. The figures in this Report reflect the financial condition and the importance of the insurance industry in our State. The statistics in this Report are compiled from the December 31, 1983 Annual Statements filed with this Department by insurance companies licensed in the State.

Respectfully submitted,

Bill Gunter

Service Insurance Company	06/22/84

Report by Insurance Commissioner Bill Gunter

The Department of Insurance continued its mission in 1983-84 to insure the fair and efficient regulation of the insurance industry while protecting the interests of policyholders.

As of June 30, 1984, the Department faced three major issues which highlighted the year: 1) the adoption by the Legislature of the Health Care Consumer Protection and Awareness Act; 2) the constant concern over company solvency and the Department's role in insuring a healthy insurance industry; and 3) the expansion of consumer awareness programs in the face of closing field offices.

HEALTH CARE COST CONTAINMENT

After several months of intense negotiations on how to best restrain spiraling health care costs, the Governor signed into law on May 18 the Health Care Consumer Protection and Awareness Act of 1984. This measure had the Insurance Department's active support, and was overwhelmingly approved by the Legislature.

The act will limit the rate by which hospitals may increase their budgets in relation to the National Hospital Input Price Index (NHIPI), the inflation rate for hospital supplies. The act also will empower the Hospital Cost Containment Board (HCCB), which previously was authorized only to review hospital budgets, to disapprove budgets of hospitals that exceed the limits without justification. The HCCB also may require those hospitals to contribute excess revenues to a new health care fund for the medically needy. The $140 million fund will be established by imposing a tax on hospital revenues of 1 percent next year and 1.5 percent thereafter.

This tax will cause Florida's for-profit hospitals to pay more of the cost of treating indigent patients than they have in the past. The fund will help extend Medicaid coverage by providing money for married and pregnant women, children in families with both parents present, families with an unemployed parent and people whose incomes fall below poverty guidelines when their medical bills are taken into account.

The act also will aid competition by requiring hospitals to publish their rates in advance, and will promote insurance plans that encourage clients to seek treatment outside hospitals as a less expensive alternative to hospitalization.

INSURANCE COMPANY SOLVENCY

Insurance company solvency continues to be a primary concern of the Department. The goal is to see that insurance rates are reasonable in relation to the coverage provided, while sufficient to enable companies to pay claims and maintain financial stability.

The monitoring of insurer solvency is a primary concern of insurance regulators across the country, particularly in light of the failing Baldwin-United Corporation, which included several insurance subsidiaries among its holdings. Through Florida's representation in the National Association of Insurance Commissioners (NAIC), and through initiative and innovation at the state level, the Department will continue to work for the protection of policyholders and companies alike.

Monitoring the financial conditions of insurance companies doing business in Florida is one of the basic purposes of the Department. Insurers are examined and audited regularly to evaluate their financial stability. These procedures detect and, in many cases, correct financial problems before they become irreversible. This activity, in turn, helps give consumers confidence in the financial soundness of companies doing business in the state. When serious problems are identified during these examinations, the Division of Rehabilitation and Liquidation becomes responsible for addressing them. During fiscal 1983-84, receivership proceedings were initiated for seventeen companies, and fifteen companies were discharged during fiscal year 1983-84. At year end, the Department was responsible for the operations of thirty-eight companies in its role as a receiver. Over the course of the year, 64,095 claims were paid totaling $31,524,321.70 to claimants of companies in receivership.

CONSUMER SERVICES

The Division of Insurance Consumer Services is responsible for the prompt, thorough and courteous resolution of insurance consumer complaints and inquiries. By intervening with companies and providing information, counseling and advice to consumers, the division provides important assistance to the insurance-buying public.

Through the combined assistance of the Insurance Consumer Hotline and the local service offices, the Bureau of Field Operations handled more than 68,000 complaints and inquiries in 1983, recovering more than $27 million for policyholders.

Five field offices were closed at the direction of the Florida Legislature during fiscal 1983-84; a sixth office was closed at the start of the new year, and most of the remaining offices will be closed at later dates. In light of this shift in consumer services, the division's Consumer Outreach Program (COP) increased its activities during the year, providing valuable advice to groups of consumers on a local basis. During fiscal 1983-84, more than 3,000 COP presentations were made around the state. These sessions also provide a valuable means of distributing the division's insurance consumer guides to members of the public.

The division also is responsible for licensing and regulating the activities of Florida's more than 81,000 insurance agents. In the past year, the Bureau of Licensing processed more than 17,000 license examinations.

Our policy is to energetically enforce the laws relating to agents' professional activities, especially to protect consumers from unethical practices. The bureau's investigations unit during the year made 809 assignments resulting in the forwarding of more than 320 investigation reports to the Department's legal office for further action. Administrative actions taken on the basis of these investigations resulted in 90 license revocations, 47 suspensions and 84 fine and probation actions.

INSURANCE FRAUD

The Division of Insurance Fraud, which has received national attention for its work in fighting this type of crime, has investigated nearly 4,300 cases of suspected fraud and other violations of the law since its implementation in 1977. As a result, there have been nearly 900 cases presented for prosecution, resulting in close to 900 arrests and more than 700 convictions, with more than 100 awaiting trial at the end of the fiscal year.

NATIONAL ORGANIZATIONS

As the 1984 President of the National Association of the Insurance Commissioners (NAIC), I was in a position to lead the fight to retain the right of the states to regulate insurance. Great strides were made in maintaining channels of communication among the state insurance departments. Participation in this organization keeps the Florida

Department in contact with the latest regulatory techniques and improvements to effectively and efficiently monitor the solvency of insurance companies.

INSURANCE COMPANY EXCESS PROFITS

On July 5, 1984 the Supreme Court of Florida issued a decision in United States Fidelity and Guaranty Company v. Department of Insurance finding the Automobile Excess Profits Law "constitutional in all respects". This decision culminated nearly four (4) years of litigation in defense of the State's Excess Profits Law for auto insurance. With the Court's definitive statement regarding the validity of the excess profits law, the Department will now proceed to expeditiously wrap up the process of securing refunds for eligible Florida auto insurance policyholders. In some instances, administrative hearings will be required prior to refund orders, but it is hoped that many insurers will proceed with refunds on the basis of the Supreme Court opinion.

Implementation of the Workers' Compensation Excess Profits Law has also begun, and insurers realizing excess profits for workers' compensation insurance for the years 1979, 1980 and 1981 have been notified. Over one million dollars ($1,000,000.00) has already been voluntarily returned to workers' compensation policyholders as a result of the excess profits law, and the Department is currently defending legal challenges to the Workers' Compensation Excess Profits Law in the First District Court of Appeal in the case of John Deere Insurance Company v. Department of Insurance. It is anticipated that the ruling of the Florida Supreme Court in the auto excess profits case will facilitate a much more rapid securing of refunds for workers' compensation excess profits.

FLORIDA PATIENT'S COMPENSATION FUND

After several years of litigation, the Department's defense of the Florida Patient's Compensation Fund (FPCF) and its ability to assess member hospitals, appears to be nearing a successful completion. On September 15, 1983, the Florida Supreme Court issued an opinion which upheld the constitutionality of the statutes which set forth the FPCF's fee-setting and assessment procedures and upheld the Department's interpretation and implementation of these statutes. An appeal by the hospital plaintiffs of this decision was dismissed by the U.S. Supreme Court. Although additional lawsuits involving three later assessments are still pending, almost all hospitals have now accepted their responsibility to pay the initial assessments to the FPCF. It is now anticipated that the Florida Supreme Court's ruling on the first assessment will enable the Department and the FPCF to levy and collect additional assessments without the same protracted litigation.

MULTIPLE EMPLOYER WELFARE ARRANGEMENTS

Implementation of recently enacted legislation providing for the regulation of uninsured Multiple Employer Welfare Arrangements or MEWA's (formerly known as Multiple Employer Trusts, or MET's) by the Department. This legislation provides standards that must be met by MEWA's so that employees who depend on MEWA's for their health care coverage, and employers who pay for such coverage, are better protected against unscrupulous and financially unsound operators.

To date, (10) MEWA's have received Certificates of Approval, and fourteen (14) MEWA's have applications pending with the Department. Two (2) purported MEWA's have been denied approval and two (2) other plans have been ordered to cease operations for failure to meet statutory requirements.

Implementation of recently enacted legislation providing for the regulation of insurance administrators (commonly referred to as third party administrators) by the Department. This legislation provides standards that must be met by administrators so that insurance companies and self-insured employers who use administrators to operate health coverage programs are better protected against unscrupulous and financially unsound operators.

To date, 161 administrators have received Certificates of Authority and 32 administrators have applications pending with the Department. Several companies have either ceased operations or reorganized with greater capitalization in response to Department investigations.

OTHER HIGHLIGHTS

-- The population of the Florida Joint Underwriting Association (FJUA) declined to an all-time low of 130,831 during fiscal 1983-84, from a one-time high of 743,287 in June 1978. The FJUA provides last-resort automobile insurance coverage to Florida drivers who cannot obtain it in the open marketplace.

-- The Comprehensive Health Association (CHA) began making health insurance protection available to Floridians previously unable to obtain coverage due to chronic health problems. Created by the 1982 Legislature with the Department's support, the CHA offers health insurance to persons considered to be "high risk" by insurers.

-- Changes in the Service Warranty Act took effect, allowing the Department greater capability to regulate service warranty associations for the protection of contract holders. The law gives the Department direct authority over unlicensed service warranty associations and defines the types of business practices prohibited in the sale of contracts.

-- More than $2 million in casualty and property insurance premiums was refunded to state agencies covered through the state's self-insurance trust funds. The Interagency Advisory Council on Loss Prevention's efforts to keep the state's insurance costs down, and the Department's successful series of employee safety programs were credited with making the refund possible.

-- The Washington Monthly, a national publication featuring critical articles about government, praised the Florida Department in one of its issues as being "one of the nation's most aggressive and efficient insurance regulatory agencies".

LOOKING AHEAD

Insurance regulation in Florida during fiscal 1983-84 retained its balanced approach of providing effective help to consumers while affording the insurance industry the flexibility it needs to maintain competition and tailor its products to the public's diverse needs and tastes.

Florida's insurance climate continues to attract a large number of companies and agents. As the state continues its rapid rate of growth, the insurance industry will be challenged to keep pace. During that process, the Department's regulatory efforts must maintain a level-headed balancing act to protect the industry's solvency as well as the needs of individual policyholders.

Division of State Fire Marshal

The Division of State Fire Marshal's responsibilities are dictated by Chapters 552, 633 and 806, Florida Statutes, with fire code promulgation authority prescribed in several other sections. To comply with these statutory responsibilities the Division is divided into four (4) bureaus and one (1) section: Bureau of Fire and Arson Investigation, Bureau of Fire Prevention, Bureau of Fire Standards and Training, Bureau of Explosives and Fire Equipment and Section of Florida Fire Incident Reporting System.

In order to execute our duties in a timely fashion the Division operates seven (7) field offices and the State Fire College in Ocala. The primary concern of the Division is to save life and property from the devastation of fire. This can be accomplished through our assistance to and involvement in the fire service community, ensuring the protection to the citizens of Florida and promoting an awareness among Floridians in all areas of fire prevention and fire protection.

SECTION OF FIRE INCIDENT REPORTING SYSTEM

The Office of the Florida Fire Incident Reporting System (FFIRS) was established October 1, 1979. The purpose of the Florida Fire Incident Reporting System is to gather and analyze information on frequency, cause, spread and extinguishment of fires, on the number, nature and cause of injuries and deaths resulting from fires, and on property losses. The Florida Fire Incident Reporting System has developed uniform data reporting methods through the use of standardized forms and National Fire Protection Association (NFPA) 901 "Uniform Coding for Fire Protection".

The FFIRS has two objectives: to assist county and local governments to upgrade their fire analysis capability, and to obtain data which can be used to more accurately assess, and subsequently combat the fire problem on a statewide basis.

A comprehensive FFIRS training package which provides instruction in completing the forms, has been developed and is available on a local basis to all of Florida's fire departments. After a department has been trained on form completion, they will fill out incident and casualty reports as fires occur. They forward the completed forms to the State Fire Marshal's Office where data is validated for input into the computer. Once the data is computerized, feedback reports are generated and forwarded to the fire departments that input the data. In addition, a quarterly computer tape containing the aggregated statewide information is sent to the U.S. Fire Administration, to be included in the national fire data base.

By monitoring all fire reports at a central agency, the opportunity is provided to spot trends in fire causes and losses, equipment or structural component failure and other significant fire problems that are not apparent at the local department level. These problems can then be analyzed and documented, and action can be taken as indicated by the data.

There are 290 fire departments currently participating in FFIRS, and are submitting approximately 17,000 incidents per month. Of these, 30% are fires. This 30% has already built a complete fire data base of over 120,000 fires that can be studied and analyzed to make Florida a more fire free state.

BUREAU OF FIRE AND ARSON INVESTIGATIONS

The Bureau of Fire and Arson Investigations has thirty (30) field investigators assigned to seven (7) field offices throughout the state. The investigators have wide ranging backgrounds in fire service, law enforcement, military and college criminology graduates. They are certified law enforcement officers with the Criminal Justice Standards and Training Commission.

The primary objectives of the bureau are the investigation of fires and the suppression of arson. The success of the bureau is due directly to the combined efforts of the insurance industry, fire service and law enforcement agencies.

Arson continues to be a concern of the insurance industry, fire service and law enforcement. Requests for fire investigations increased 8% during the 1983-84 fiscal year over the 1982-83 fiscal year. The average dollar loss per arson case for the 1983-84 fiscal year was $28,094. In 1973 it was less than $10,000. This indicates that the incidence of arson for profit in Florida, as in other states, is related at least in part to economic conditions; however, arson for profit has not been the only motive for arson. The bureau has uncovered evidence of other crimes such as murder, burglary and robbery during arson investigations.

The investigators continue their own education and training and at the same time provide training to other agencies with similar responsibilities. The bureau has conducted workshops and other training sessions for law enforcement, fire service, insurance industry and others throughout Florida. The highlight of training for the year was the 1983 Florida Arson Seminar. The seminar sponsored the top arson investigation specialists in the nation as speakers. Plans are under way for the 1984 seminar to be held at the Dutch Resort Hotel in Orlando, September 24-28.

An FCIC/NCIC (Florida Crime Information Center-National Crime Information Center) computer terminal has been installed for the bureau's use in criminal investigative activities. The terminal provides bureau investigators direct access to criminal history information, outstanding arrest warrants information, stolen vehicle and property records, vehicle title and registration information and other vital information necessary to perform criminal investigations. The terminal also enables communications with other law enforcement agencies.

FISCAL YEAR JULY 1983 – JUNE 1984

Cases Closed		*Arrests*	*Convictions*

Insurance Representatives	149
Police Departments	82
Sheriffs Departments	725
Others	87
TOTAL	2,863

BUREAU OF FIRE STANDARDS AND TRAINING

The Bureau of Fire Standards and Training is the vehicle through which the vast fire service training and education responsibilities of the Division of State Fire Marshal are executed. The Bureau has the responsibility for functions relating to qualifications and standards for employment, training and education of firefighters, certification of fire inspectors, administration of the fire service educational incentive program, curriculum development and submission of reports and recommendations to the Division of State Fire Marshal concerning the improvement of fire service training and education.

The Bureau is also responsible for the administration of the Firefighter Educational Compensation program. As of July 1, 1984, there were 1,508 firefighters participating in this program, 275 at the Baccalaureate level and 1,233 at the Associate level. One hundred fifteen firefighters seeking entry to the program were rejected. The total disbursement of monies through this program for Fiscal Year 1983-84 was $831,000.

The Bureau of Fire Standards and Training is subdivided into four (4) sections: Standards, Training, Curriculum Development, and Forensic Laboratory.

Fire Standards Activities

Examinations Administered	*1983–84*	*Total To Date*
Firefighter Minimum Standards	1,381	13,606
Equivalency	32	536
Forestry Minimum Standards	56	642
30-Hour Volunteer Basic	1,197	4,313
60-Hour Volunteer Advanced	33	112

Firefighter I	1	3
Forestry Firefighter I	0	37
Firefighter III	0	27
Municipal Fire Inspector	157	948
Department of Education Inspector	0	103
Health & Rehabilitative Services Inspector	0	63
Instructors	165	1,176
Re-examinations	223	747
TOTAL	3,294	22,377

Certificates Issued	*1983–84*	*Total To Date*
Compliance	990	13,239
Completion	1,177	6,442
Forestry Compliance	58	600
Forestry Completion	13	62
30-Hour Basic Volunteer	1,237	3,941
60-Hour Advanced Volunteer	37	122
Municipal Inspector	168	918
Municipal Inspector Re-certification	9	28
Department of Education Inspector	17	189
Department of Education Re-certification	33	33
Health & Rehabilitative Services Inspector	23	87
Health & Rehabilitative Services Re-certification	12	12
Competency	224	1,246
TOTAL	3,998	26,919

The Standards Section is responsible for the administration of the Florida Firefighters Minimum Standards Training Program. This section also reviews the preemployment paperwork to ensure that the employment was within statutory limits, prepares and administers examinations covering both cognitive and psychomotor skills developed in the minimum standards curriculum, and certifies firefighters, instructors, fire inspectors, and training centers.

A Forensic Laboratory is also operated by the Bureau for the purpose of analyzing fire residue to identify if an accelerant is present. During the 1983-84 fiscal year, 1,413 cases involving 4,153 samples were examined by the laboratory staff. In fiscal year 1983-84, the Forensic Laboratory achieved an overall identification rate of 73.5%. The laboratory staff is also involved in research and development and in teaching courses for the Fire College.

Professional consultations have been another extremely productive function of the Bureau of Fire Standards and Training.

The Curriculum Development Office has upgraded courses for Fire Inspection Certification, developed Instructor Study Guides for "Arson Investigation", "Fire Codes and Building Construction", "Architectural Working Drawings" and "Minimum Recruit Training". Also, we have created and proposed a four-year degree program for fire service personnel leading to the Bachelor Degree in Fire Science. We have conducted tours and lectures with local school and civic group organizations; attended and participated in workshops and seminars as advisors with statewide organizations and agencies. We will continue our efforts for public education through educational development.

The Training Section of Florida State Fire College offers courses of instruction and specialty seminars in all facets of fire prevention and suppression, both on campus in Ocala and through training courses conducted at fire departments throughout the State.

BUREAU OF FIRE STANDARDS AND TRAINING TRAINING STATISTICS

E = Certificates Issued

BUREAU OF EXPLOSIVES AND FIRE EQUIPMENT

The Bureau of Explosives and Fire Equipment is responsible for the administration and enforcement of Chapter 552, F.S., "Explosives", and sections of Chapter 633, F.S., concerning licensing, regulation, examining and training of fire equipment dealers, permit holders, and fire protection system contractors.

As the regulatory agency for the three programs, this Bureau investigates the illegal use and/or possession of explosives; investigates the improper installation and servicing of portable fire extinguishers and fire suppression systems; investigates the illegal actions of any fire protection system contractor.

The primary objective of the Bureau is to safeguard the lives and property of the citizens of Florida through the enforcement of laws and regulations concerning explosives and fire protection equipment.

All persons holding licenses, permits and certificates are qualified by examination regarding the level of expertise in the field of their operation. All persons holding a license and/or permit in the fire equipment program are required to be recertified every five years by training and examination.

Licenses Issued

Type and Class	*Number Issued*
04-05 Manufacturer-Distributor-Explosives	14
06-05 Dealer - Explosives	15
07-06 User - Explosives	347
09-06 Blaster Permit	589
07-10 Fire Protection System Contractor I	267
07-11 Inactive Contractor	22
07-12 Fire Protection System Contractor II	61
07-13 Fire Protection System Contractor III	14
07-01 Fire Equipment Dealer I	83
07-02 Fire Equipment Dealer II	47
07-03 Fire Equipment Dealer III	122
09-01 Fire Equipment Technician I	506
09-02 Fire Equipment Technician II	152
09-03 Fire Equipment Technician III	396
Total Licenses Issued	2,635

Examinations Processed:

Explosives (all classes)	178
Fire Equipment (all classes)	590
Fire Protection System Contractor (all classes)	70
Total Examinations Processed	838

Other Activities:

Explosive Program:

Explosive Storage Magazine Inspections	124
Explosive Storage Magazine Re-Inspections	11
Investigation of Illegal Use of Explosives	33
Violations Issued	23
Cases Filed with Legal Division	4
Cases Pending	3
Administrative Fines	$ 3,000
Explosive Investigations Pending	5
Explosive Investigations Closed	28

Re-Inspection of Dealer Facilities	62
Pre-License Investigations	45
Investigation of Improper Installation and/or Servicing	243
Violations Issued	107
Cases Filed with Legal Division	16
Cases Pending	7
Administrative Fines	$ 5,300
Cease and Desist Orders Issued	2
Cases Pending with State Attorney	2
Fines	$ 1,500
License and/or Permit Revocations	2
Fire Equipment Investigations Pending	70
Fire Equipment Investigations Closed	304

Fire Protection System Contractor Program:

Pre-License Investigations	15
Investigation of Improper Installations	7
Cases Filed with State Attorney	1
Fines	$14,865
Cases Filed with Legal Division	2
Cases Pending	2

BUREAU OF FIRE PREVENTION

Duties and Responsibilities

The duties and responsibilities of the Bureau of Fire Prevention are set forth in Chapter 633, Florida Statutes, and Sections 393.067, 400.411, 402.305, 509.215, and 526.141, Florida Statutes. These include the following:

a. Prevention of fire;

b. Storage, sale, use, keeping, manufacturing, handling, or other disposition of combustibles, flammables, crude petroleum of any of its products.

c. Installation and maintenance of fire alarm systems and fire extinguishing equipment;

d. Construction, maintenance and regulation of fire escapes;

e. The means and adequacy of exits from all buildings in the event of fire;

f. Inspection of all buildings and equipment on premises within their jurisdiction and if it be found that any building or structure shall want for repairs, lack of sufficient fire escapes, alarm apparatus, fire extinguishing equipment, dilapidated condition or from any other cause be especially liable to fire, and which is situated so as to endanger life or property, or when they find combustible or explosive matter or flammable conditions dangerous to the safety of such building or to property and life, order same to be removed or remedied. This includes inspections of self-service gasoline stations and all state-owned and state-leased buildings at least annually, and other facilities as requested (which includes facilities required to be inspected annually by other state agencies and local government);

g. Inspection of plans for new buildings or significant alterations to existing buildings. (EXCEPTION: The Department of General Services is charged with this responsibility for state-owned and state-leased property; however, this bureau is consistently called upon for help.) The service rendered by this bureau is of real value to the citizens as it saves much money to construct a building properly and not have to make corrections after being built;

h. Establish and maintain fire safety standards for child care facilities, adult congregate living facilities, and other type occupancies, including "uniform" fire safety standards for hospitals, nursing homes, correctional facilities, state-owned and state-leased buildings, migrant labor camps, elevators, public lodging establishments, public food-service establishments, residential child care facilities and self-service gasoline stations;

i. Serve (through the Division Director and the State Fire Marshal) as the final administrative interpreting authority of the State's fire safety standards;

j. Serve as a "service bureau" for architects, engineers, fire protection officials and others. This includes serving as a central reference point and source of information, interpreting technical provisions, sponsoring symposiums, conferences, etc., on fire related matters.

k. Maintain comprehensive records, including copies of fire safety inspection reports of each state-owned and state-leased facility as well as public schools K-12 and other residential facilities as requested.

There are approximately 700 fire departments consisting of paid and volunteer personnel with which this office works very closely. Also there is a close working relationship with building officials, city officials and insurance company representatives. All of the above-mentioned are working toward a common goal and that is the preservation of lives and property. The Bureau of Fire Prevention works diligently assisting them in their fire safety endeavors and helping them to secure the correction of deficiencies when found. There are occasions when the local fire departments need our help with reference to specific situations and, therefore, they frequently rely on this office for assistance. When a Fire Safety Survey is made by the bureau, a representative of the local fire department is invited to accompany our Fire Protection Specialist. This gives impetus to fire prevention and also gives the local fire department an opportunity to do prefire planning.

The Bureau of Fire Prevention gives priority to the inspection of state-owned and state-leased properties where people are held against their will, such as prisons, and mental institutions. The remaining state properties and private facilities are inspected as time and personnel permit. In addition, blueprints are frequently reviewed to ascertain their compliance with the applicable fire safety standards. A significant amount of time is spent in providing consultation services to architects, engineers, other professional people, and the general public (this service has proved to be exceptionally beneficial to all parties involved).

The following will provide some insight into the scope of activities for this bureau. Please bear in mind that this list is not all-inclusive.

Type Occupancy	*Estimated Number of Buildings*
Adult Day Care	46
Child Care Facilities	120
Adult Congregate Living Facilities	784
Adult Foster Homes	774
Developmental Service Facilities	546
Child Care Center (6 or more children)	3,261
Correctional Facilities (Jails, etc.)	329
Public Schools/Community Colleges	20,100
State-owned Buildings	10,851
State-leased Buildings	921
Self-Service Gasoline Stations	7,301
TOTAL	45,033

At the present time the bureau has sixteen (16) authorized positions for Fire Protection Specialists, plus a Bureau Chief. The statistics for 1983 reflect that these specialists continue to equal or surpass the goals set for the previous year. Please refer to the following table:

Fiscal Year	*Fire Safety Inspection of Buildings*
July '79 - June '80	10,667
July '80 - June '81	11,759
July '81 - June '82	11,278
July '82 - June '83	11,922
July '83 - June '84	11,950

It is important to note that records during the past several years show that an average of 228 deaths are caused by fire in Florida each year. It is also significant that the fire losses paid by insurance companies in Florida during the year 1983 amounted to in excess of 200 million dollars.

As of June 30, 1984, to the State of Florida provides insurance coverage for property valued at approximately $3,944,698,672.00. Although statistics are impressive, it must be kept in mind that it is difficult to document the real value of fire prevention; for example, how can one point to "a life that was saved," or to "a building that was saved" from "a fire that never occurred", i.e., one that was prevented!

The Bureau of Fire Prevention continues to follow-up on the fire protection assessments of county jails. Since our initial involvement in the project in February 1983, more than 75% of the facilities in Florida have corrected fire deficiencies listed by Fire Protection Specialists, or plans to construct new facilities have been implemented, or detailed documents to resolve outstanding fire safety deficiencies have been released. The remaining 25% are being reviewed by the Department of Legal Affairs for appropriate Administrative Action.

Since the Legislature mandated the annual fire safety inspections for approximately 20,100 public schools/community colleges in Florida by the division, the bureau unveiled its compliance plan on July 1983. This included conducting Public Schools/Community College Workshops throughout the state and authorizing more than 280 qualified fire officials, who attended the workshops, to inspect educational facilities within their jurisdictions. The remaining educational buildings, where no fire officials were qualified to inspect, were assigned to the bureau's Fire Protection Specialists for their annual Fire Safety Survey.

Even though budget limitations prevented the bureau from conducting comprehensive staff development and training programs, Fire Protection Specialists, under the coordination of their Lead-workers, attended three staff meetings for their Regional Territories. The staff meetings included discussions on new division and bureau policies, the Florida Statutes, Administrative Rules and Codes and Standards. A "one day" workshop on Automatic Sprinkler System Plans Review was sponsored by the National Automatic Sprinkler Association and was attended by Fire Protection Specialists in the North, West, and Central Florida Territories. The workshop will be conducted for Fire Protection Specialists in the South Florida Territories at a later date.

A highlight each year continues to be the Annual Statewide Fire Prevention Conference, which has earned an excellent reputation throughout the nation. Internationally known specialists in the fire service field attend and participate in the program. Those who have taken part in this achievement highly praised the educational value of this conference. Additional features of this conference include the announcement of "Fireman of the Year", "Volunteer Fireman of the Year", and "Inspector of the Year", who are chosen on a state-wide basis.

Personnel employed as State Fire Protection Specialists are professionals. The state requires that one has graduated from an accredited four-year college or university with major course work in fire protection, or some other related field. In addition, a minimum of three years work experience in fire prevention is required. This experience must be specifically related to activities of this office.

Division of Liquefied Petroleum Gas

The Division of Liquefied Petroleum Gas is responsible for the administration and enforcement of Chapter 527, F.S., entitled "Sale of Liquefied Petroleum Gas." The division is charged by this statute to enforce laws and regulations in the interest of public safety where LP gas is stored, transported, distributed and utilized. The division's public responsibility for LP gas safety begins when the product enters the state borders and continues until the product is safely consumed by the public.

Chapter 527, F.S., provides for state regulation of a highly technical and widely used commodity–liquefied petroleum gas. The unique characteristics of liquefied petroleum gas require a high level of expertise and special laws and regulations. The enforcement of the provisions of this law is essential for the public welfare for protection against loss of property, health and life by fire or explosions. The provisions of Chapter 527, F.S., insure that only competent persons engage in the business and that compliance with acceptable safety codes and standards is achieved.

Chapter 527, F.S., provides for rule making by due process. Under this provision, the division adopts National Fire Protection Association pamphlets for safety. These national standard codes provide the safety guide for the storage, handling and utilization of liquefied petroleum gas, and enforcement of these codes is the responsibility of division safety engineers.

The division has been certified by the Federal Office of Pipeline Safety to enforce the Pipeline Safety Act as it applies to liquefied petroleum gas pipelines. The pipeline safety program is financed on a 50/50 basis with the U.S. Department of Transportation.

Personnel of the LP Gas Division organize and present safety seminars and workshops on subjects dealing with safe practices wherever LP gas is involved. They also serve local authorities as experts in the field of code interpretation and acceptable LP gas safety practices.

The division rules on the acceptability of proposed plans for the installation of bulk LP gas storage. The division engineers follow-up with on-site inspection of construction as to the safety devices required.

Those portions of the business community that benefit from the LP Gas Division activities include architects, plumbing contractors, pipeliners, LP gas appliance manufacturers, and appliance service centers, in addition to the LP gas dealers.

There are nearly 3,000 licenses issued annually through the Division of Liquefied Petroleum Gas. License revenue is the prime source of the LP gas safety enforcement budget. There are 13 full-time and one part-time positions assigned to this division to serve the state. Engineers are located in West Palm Beach, Orlando, Tampa, Jacksonville and Tallahassee.

The division's responsibility is to promote LP gas safety in the State of Florida for the protection of the public's health, safety and welfare.

Licenses Issued—Fiscal Year 1983–84

Type and Class		*Number Issued*
4-02	Manufacturer of appliances and equipment for use of LP gas	8
6-01	Dealer in LP gas, in appliances and equipment for use of such gas and installation	580
6-02	Dealer in appliances and equipment for use of LP gas	1,171
6-03	Installation of carburetion equipment	30
6-04	Dealer in LP gas	684
8-03	Installation of appliances and equipment	402
	TOTAL ALL LICENSES	2,875

Activities of the LP Gas Division—Fiscal Year 1983–84

1.	Bulk Plant Inspections & Reinspections	624
2.	Bottle Filler & Motor Fuel Dispensing Stations Inspections and Reinspections	1,083
3.	Vehicle Inspections	209
4.	Distribution Systems Inspections & Reinspections	793
5.	Motor Home or RV Factory Installation Inspections	21
6.	Appliance Inspections	125
7.	Consumer Installations Inspections	2,149
8.	Pre-License Inspections	365
9.	Accident Investigations and Follow-ups	166
10.	Licensee Investigations	369
11.	Dealer Consultation or Technical Assistance	1,654
12.	State, County or Local Agency Technical Assistance	259
13.	Plans Reviewed	112
14.	Qualifying Exams Administered	743
15.	Complaints Handled	514
16.	Safety Meetings	105

SUMMARY OF 1984 LEGISLATIVE ENACTMENTS WHICH DIRECTLY OR INDIRECTLY AFFECT THE INSURANCE INDUSTRY AND THE INSURING PUBLIC

CS/HB 16 —

This bill amends Section 633.524 by requiring persons who act as contractors for automatic fire sprinkler systems for one-family and two-family dwelling units and mobile homes to be certified by the State Fire Marshal and creating a new contractor category - Contractor IV. The effective date of the law is October 1, 1984.

CS/SB 81 —

This law reviews Chapters 327 and 328 to make titling and registration of vessels more similar to that for motor vehicles. It requires all vessels to be registered as commercial or non-commercial, and makes changes to prevent fraudulent registration of a vessel as "homemade." All vessels will be required to have hull identification numbers. No new fees or increased fees are proposed. Fees collected under current law will be placed in the Motorboat Revolving Trust Fund. The effective date of the law is October 1, 1984.

SB 90 —

This bill exempts direct sellers from the definitions of "employee" and "employment" for purposes of workers' compensation and unemployment compensation. The effective date of the law is October 1, 1984.

CS/CS/SB 176 & 697 —

This bill is entitled the "Health Care Consumer Protection and Awareness Act." Amends Chapter 395 to provide the Hospital Cost Containment Board with the authority to approve, approve as amended or disapprove each hospital's budget pursuant to certain conditions. Provides penalties for hospitals not in compliance with this act. The Board membership is reduced to 9 members and will be administratively housed in the Office of the Governor, effective December 31, 1985.

Increased indigent medical care is funded by an assessment on hospital net revenues of 1 percent the first year and 1.5 percent thereafter, and by annually appropriating 20 million dollars from the General Revenue Fund. The Department of Health and Rehabilitative Services will increase eligibility and expand program benefits for Florida Medicaid over the next 3 years, and conduct a study to determine the feasibility of utilizing funds from the medical indigency pool to create a state financed program to fund hospital care for the poor. The Department is appropriated 10 million dollars and directed to establish primary care for low-income persons through the county public health units. The Hospital Cost Containment Board is directed to contract with the state university system to conduct a study summarizing the current funding mechanisms of financing indigent care in Florida and identifying proposals for additional broader-based funding sources. Hospitals and health insurers shall establish by no later than March 1, 1987, prospective payment arrangements that provide hospitals financial incentives to contain costs. Each hospital shall negotiate with each health insurer which represents 10 percent or more of the hospital's private pay patients.

The Department of Insurance will collect information from each health insurer on an annual basis including a summary of typical benefits, exclusions and limitations for each type of individual policy form currently being issued in the state. The Department will collect a schedule of rates for each type of policy form reflecting typical variations by age, sex, region of the state, or any other applicable factor in use that is appropriate.

The Department is directed to publish, on a quarterly basis, a consumers guide on health insurance. Each health insurer shall annually submit to the department available information related to physician charges. The Department of Insurance, in conjunction with the health insurance industry and the Hospital Cost Containment Board, shall make an initial report to the 1985 regular session of the Legislature as to the feasibility of subdividing total physician charges by specialty and subdividing the most commonly used procedures by location in this state. Certain changes were made to the certificate of need process to allow HRS more flexibility in processing applications more efficiently.

The effective date of the law is upon becoming law.

HB 184 —

This bill relates to inspection of state buildings and premises, requiring all construction, renovation, alteration or change of occupancy in new or existing state-owned buildings or state-leased space to comply with uniform fire safety standards of the State Fire Marshal. Provides for plan review, inspections and the issuance of orders of compliance. Requires compliance of certain privately-owned buildings with such standards prior to being leased by a state agency. Changes the duties of the Division of Building Construction and Property Management, Division of Communications and Division of Security of the Department of General Services with respect to fire safety and security. The effective date is upon becoming law.

SB 188 —

This bill provides certain revisions to Chapter 527, Florida Statutes, relating to the sale of liquefied petroleum gas. It requires individual licenses and compliance for multiple location operations. It requires a $10 nonrefundable examination fee and establishes a $50 delinquency fee for late renewal of licenses. This bill also requires an insurance affidavit in lieu of bond before licensing. It requires department approval of certain bulk container installations and exempts dispensing units from minimum storage requirements. The effective date of the law is July 1, 1984.

SB 214 —

This bill makes employers responsible for paying supplemental permanent total benefits in workers' compensation cases in which the injury occurs on or after July 1, 1984. Provides that certain reports relating to wages paid and payments of compensation which the Division of Workers' Compensation may require from a self-insurer shall be maintained as confidential reports. The effective date of the law is upon becoming law.

SB 229 —

This bill provides a first degree misdemeanor penalty for the possession of an explosive without a license. The effective date of the law is October 1, 1984.

SB 257 —

This bill provides that any individual who is a full-time salaried employee of a business which offers motor vehicles for rent or lease and who is otherwise qualified may be licensed by the Department of Insurance to sell baggage insurance. Disclosure information is provided to the consumer to prevent duplicate insurance purchases. The effective date of the law is upon becoming law.

CS/HB 318 —

This bill changes uninsured motorist coverage to be that of excess underinsured motor vehicle coverage thus making all uninsured motorist coverage excess uninsured and underinsured motor vehicle coverage. All uninsured motorist coverage shall be over and above any motor vehicle liability coverage and prohibits setoffs. Policyholders continue to have the option to reject the coverage or select limits lower than their bodily injury liability limits. The effective date of the law is October 1, 1984.

CS/SB 342 —

This bill creates Part III to Chapter 641, Florida Statutes, to provide for the regulation of prepaid health clinics. A clinic is similar to a health maintenance organization but will not provide inpatient hospital services or hospital inpatient physician services. The effective date of the law is December 31, 1984.

CS/SB 353 —

This bill expands and clarifies the authority of the Department of Insurance to examine and approve acquisitions or tender offers involving 5 percent or more of the voting securities of domestic stock insurers. The bill provides for notice and hearing prior to the department's approval or disapproval of a given acquisition or tender offer. The effective date of the law is upon becoming law.

CS/SB 399 —

This bill redefines threshold building and adds a definition of enforcement agency. It requires the Board of Building Codes and Standards to establish a voluntary building inspector certification program and perform other tasks relating to such program. Provides the board with the authority to issue binding opinions regarding certain sections of the Florida Statutes relating to building construction standards upon request. It makes numerous changes to Section 553.79, Florida Statutes, relating to application of the law relating to building construction standards. The effective date of the law is October 1, 1984.

SB 439 —

This bill amends several sections of Chapter 633, F.S., defines a Contractor II to include persons who execute service contracts for sprinkler and fire extinguisher systems, changes license examinations, increases fees, adds new classes of contractor licenses, and increases insurance requirements, requires installation, service, inspection and maintenance of fire protection equipment in accordance with manufacturer's specifications, deletes continuing education requirements for safety inspections, amends sections relating to discipline of firefighters, requires the State Fire Marshal to investigate alleged violations by contractors. The effective date of the law is October 1, 1984.

CS/SB 480 —

This bill relates to qualifications for license for life insurance agents. It limits the amount of life insurance that can be sold by funeral directors or their employers to a maximum of $5,000. The effective date of the law is July 1, 1984.

SB 524 —

This bill eliminates the restriction on the minimum proceeds payable on certain life insurance policies. It changes disclosure requirements relating to style of type in a policy. The effective date of the law is October 1, 1984.

CS/HB 526 —

This bill revises and reenacts Chapter 648, Florida Statutes, relating to bail bondsmen and runners. The major revision provides for a seven-member Bail Bond Regulatory Board within the Department of Insurance to assist in the regulation of bondsmen and runners. The Insurance Commissioner is responsible for appointing the members of the Board.

The primary function of the Board will be to review investigation files to determine whether administrative action should be taken against a licensee. If charges are then filed by the Department, the Board will act as hearing officer whenever a licensee requests an informal hearing. The Board may also review recommended orders submitted to the Commissioner by hearing officers after formal hearings and submit exceptions to the recommended order if desired.

The bill also provides additional penalties for certain violations of Chapter 648, including mandatory suspension of license for some violations.

The effective date of the law is October 1, 1984.

CS/HB 530 —

This bill authorizes insurers to establish financial incentive programs to encourage policyholders to audit their own medical bills. Requires health insurers to file certain rating manuals. Authorizes the department to exempt certain health insurance policies from the requirement. Requires the department to examine health insurers. Requires health insurance contracts to contain one or more procedures to contain health insurance costs. Requires coordination of benefits among group policies. Authorizes coordination of benefits between group policies and plans and certain individual policies. Requires certain health insurance policies to provide out-of-hospital benefits. Requires health insurers to file annual reports with the department with respect to health care cost-reducing measures undertaken. The effective date is October 1, 1984.

SB 531 —

This bill grants permission for the furnishing of blank forms, applications, stationery or other supplies to agents placing surplus lines business under the provisions of Sections 626.913 - 626.937, Florida Statutes. The effective date of the law is October 1, 1984.

SB 566 —

This bill authorizes the Department of Law Enforcement to accept fingerprints of certain persons connected with insurers transacting or proposing to transact insurance or with certain entities eligible to be examined or investigated by the Department of Insurance. It authorizes the Department of Law Enforcement to exchange criminal history records with the Department of Insurance. The effective date of the law is upon becoming law.

SB 645 —

This bill with respect to provisions of law regulating the retail sale of fireworks and authorizing the seizure of illegal fireworks, modifies the definition of fireworks to include "sparklers" within such regulatory provisions. The effective date of the law is October 1, 1984.

HB 677 —

This bill provides that the Department of Insurance may waive the three-year satisfactory operations requirement for foreign or alien insurers seeking to transact business in the state if they provide a product or service not readily available to consumers in Florida. Further, both life and health insurers may provide excess insurance to self-insurers of a plan of health insurance and multiple employer welfare arrangements. Finally, the purpose of the Florida Insurance Exchange is expanded to recognize its writings of surplus lines insurance in other states. The effective date of the law is October 1, 1984.

SB 682 —

This bill expands mandated coverage for newborn children in individual, group, blanket and franchise health insurance policies to include the newborn child of a family member of the insured or subscriber. The effective date of the law is October 1, 1984.

SB 686 —

This bill revises provisions relating to investment of state funds in savings accounts and certificates of deposit. Revises provisions relating to investment of local government surplus funds and duties of the State Board of Administration with respect to the Local Government Surplus Funds Trust Funds. It provides that local governments may hold funds in deposit accounts with savings institutions. In addition, the bill allows the State Treasurer to institute a Securities Lending Program within the State Treasury. The effective date of the law is upon becoming law.

CS/SB 712 —

This bill contains a substantial revision of Florida's condominium laws. One small part of the bill relates to insurance. Under current law, the condominium association must provide insurance for the building and common elements. One change is that floor coverings, wall coverings and ceiling coverings are now excluded from the definition of "building." Therefore, these items must be covered by the individual unit owners' insurance. A second change is contained in a new paragraph which provides that insurance policies issued to individual unit owners shall provide coverage which is in excess of the amount recoverable under the association's policy. The effective date of the law is October 1, 1984, except that sections 26 and 27 will be effective upon becoming law.

HB 715 —
This bill exempts life insurance offered by a travel agency under certain circumstances from the prohibition against the offering or providing of free insurance. The effective date of the law is October 1, 1984.

CS/SB 726 —
This bill requires employers, groups or organizations to provide an open panel dental plan if a contribution is being made on a closed panel plan. Insurers who provide services through a closed panel plan and dental service plan corporation are required to notify the employer, group or organization of this requirement. Further, dental service plan corporations in existence on July 1, 1981, must have as a minimum the lesser of $100,000 in cash or United States securities or working capital equal to all acquisition costs and operating expenses for a period of six months from the date of the issuance of the license. The effective date of the law is October 1, 1984.

CS/SB 762 —
This bill relates to firefighters, creating a trust fund for the payment of supplemental compensation for qualifying firefighters and providing for payment to special fire service taxing districts from the trust fund. The effective date of the law is July 1, 1984.

HB 822 —
This bill exempts mortgage guaranty insurance policies from the readable language requirements of the insurance code. The effective date of the law is upon becoming law.

HB 871 —
This bill deletes the specified period for the fiscal year of the Florida Patient's Compensation Fund. Delays scheduled increases in the entry level coverage health care providers are responsible for paying. Deletes the scheduled July 1, 1985, repeal of provisions which specify the order of payment of claims received after funds are exhausted in any year for the payment of judgements or settlements. The effective date of the law is upon becoming law.

HB 1131 —
This bill requires multiple-employer welfare arrangements to comply with the statutory provision on continuation of coverage of handicapped children. The effective date of the law is October 1, 1984.

CS/HB 1145 —
This bill amends provisions which currently authorize each county, municipality, school board, local government unit and special taxing district to self-insure health, accident and hospitalization coverage for public officers and employees to authorize such entities to also enter into risk management programs to provide such coverage. The effective date of the law is upon becoming law.

INSURANCE DEPARTMENT SERVICE OFFICE OPERATIONS

The Insurance Department has in operation sixteen (16) Service Offices and four (4) Regional Offices in order to offer localized insurance consumer services to the public in designated areas throughout the State. During the calendar year 1983, the field offices assisted Florida citizens and others on 68,311 complaints, claims and inquiries resulting in adjustments paid to claimants totaling $27,446,847. On September 1, 1983, a centralized Insurance Consumer Hotline was installed in the Tallahassee headquarters to provide greater access to the Insurance Department to assist the public with insurance inquiries and complaints. During the period of September 1983 through December 1983, a total of 12,176 telephone calls were processed. The locations of our Service Offices are as follows:

Bradenton, Florida: 233 U.S. 301 Boulevard East
Brooksville, Florida: 26 West Broad Street
Daytona Beach, Florida: 125-B South Palmetto Avenue
Fort Lauderdale, Florida: 201 West Broward Boulevard, Suite 207
Fort Myers, Florida: 2365 West First Street
Gainesville, Florida: 4424 N.W. 13th Street, Suite B11
Jacksonville, Florida: 111 Coastline Drive, East, Box 40
Live Oak, Florida: 314 North Ohio Avenue
Melbourne, Florida: 19 North Babcock Street
Miami, Florida: 750 Dade County Regional Service Center, 401 N.W. 2nd Avenue
Orlando, Florida: State Regional Service Center, Suite 401, 400 West Robinson Street
Panama City, Florida: 231 East Fourth Street
Pensacola, Florida: Suite 515, 5th Floor, 160 Governmental Ctr.
St. Petersburg, Florida: 412 - 12th Avenue North
Tampa, Florida: Hillsborough County Regional Service Center, Suite 809, 1313 North Tampa Street
West Palm Beach, Florida: 111 Georgia Avenue, Suite 209

INSURANCE EXCHANGE OF THE AMERICAS, INC.

The Insurance Exchange of the Americas, Inc. is established under the authority of Section 629.401, F.S. The Insurance Exchange is an insurance facility patterned after Lloyds of London, where specialized kinds of insurance business can be transacted. Members of the Exchange include underwriting members and broker members. Brokers bring various kinds of insurance risks, as permitted by statute, to the Exchange were underwriting members provide insurance for the risks.

Following is a list of underwriting members approved to transact the business of insurance at December 31, 1983.
